

# SPA SENSATIONS

Equipment for Spas. Experience the Power of Water.

**UNBESCHIEDEN**  
Baden-Baden

# Spa Sensations – high-tech in an elegant design

which expresses tranquillity and gives you endless options with its subtle aesthetics, clear lines and classic style. The perfect atmosphere for a successful treatment session. The Spa Sensations product line features equipment for professional health and beauty treatments and spas. This includes

hydrotherapy baths for fully automated underwater massages, partner baths, dry floatation systems for body wraps, and tables for oil massages, hot-stone treatments, Ayurveda sessions and Vichy showers.

The success of the Unbescheiden company proves that its products set the benchmark for treatment equipment. The Spa Sensations line combines modern influences from hydro- and balneotherapy with current trends from spas and wellness centres. The crowning touch is Unbescheiden's approach to helping you pamper all of the senses.

Each system of the Spa Sensations product line is equipped with advanced technical solutions. They allow for optimal working conditions and offer various treatment possibilities to meet the requirements and preferences of the user. All systems are highly economical and characterized by premium treatment quality.

Unbescheiden – the name for your well-being

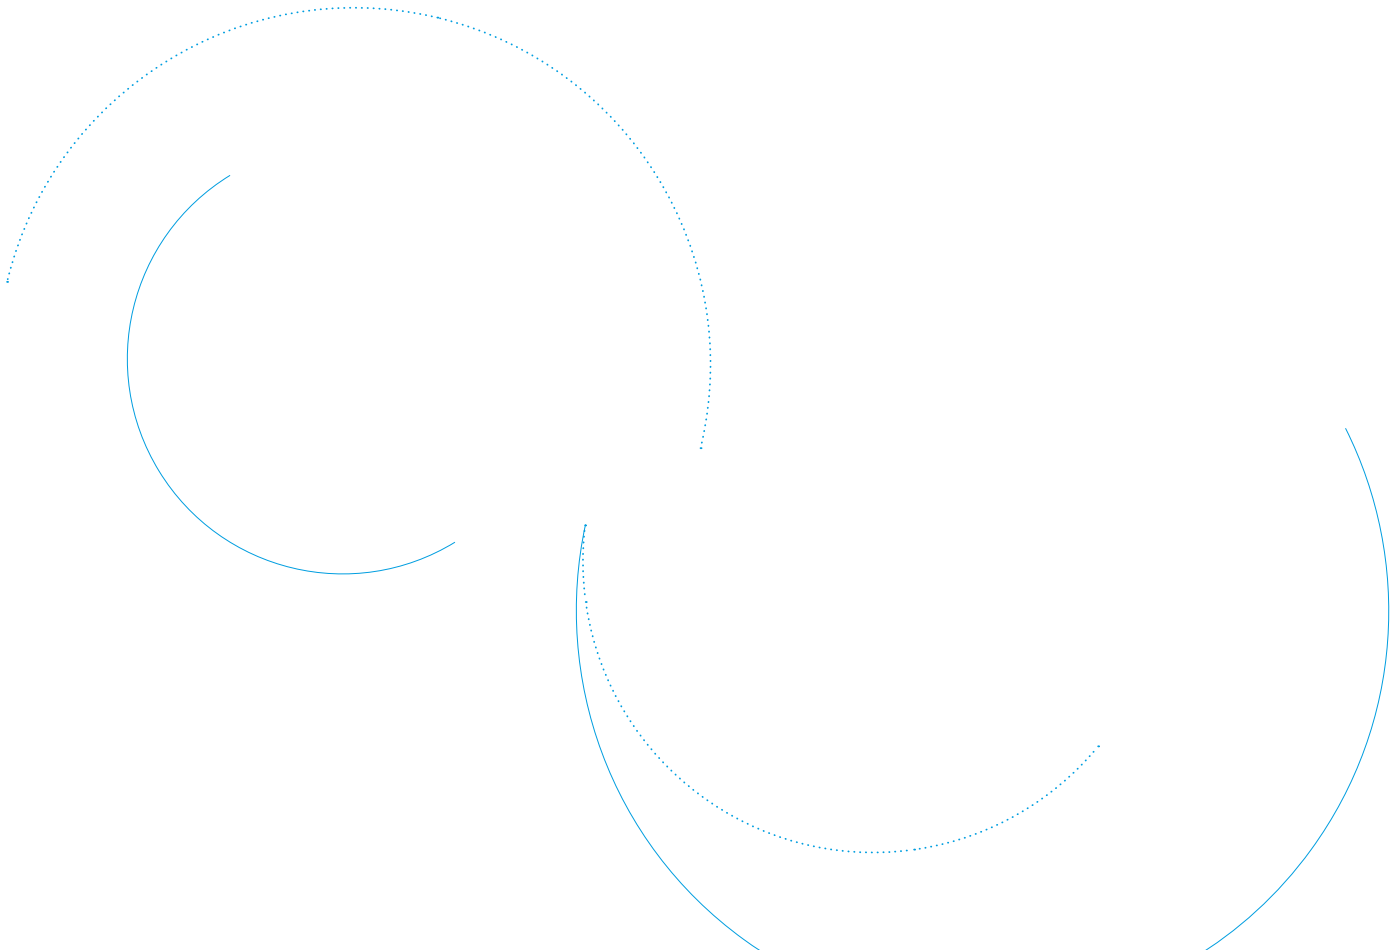

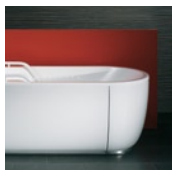

... No enjoyment  
can be transitory;  
the impression  
which it leaves  
is permanent.

*Johann Wolfgang von Goethe*

# CARACALLA massage tub – an experience full of enjoyment that meets the highest demands.

With 260 water nozzles, 50 air nozzles\* and 150 light spots in eight different colours\*, CARACALLA gives you treatment options that range from an intense massage

all the way to gentle pampering, customised to your personal preferences. Every treatment is based on letting the muscles relax in warm water. The massage programme uses underwater pressure nozzles and closely follows the sequence of a hydrotherapeutic massage. Each massage cycle starts at the feet and moves towards the heart. The massage begins with effleurage, gentle strokes of the muscles and tissues. During the intense phase after that, ten different zones are treated, covering 20 parts of the body which range from the soles of the feet to the shoulders. CARACALLA massages have excellent deep-muscle effects because they are so precisely designed to match the contours of the human body.

No matter whether you want a classic massage, an intense massage or an anti-cellulite treatment: CARACALLA lets you choose from 10 programmes, and you can even adjust the pressure and duration in individual zones. 10 additional treatments can be individually programmed and saved. An air-bubble bath\* is an excellent complement to the massage programmes and gives you a remarkable feeling of lightness. The Starlight Effect\* with its 150 light spots in eight different colours also contributes to your relaxation and enjoyment.

CARACALLA is controlled using simple, clearly-designed menus on a screen. The hygiene options such as automatic rinsing or disinfection functions make it even easier to use. CARACALLA's sophisticated technology means that you can focus on what is most important: providing an attentive treatment that promotes the well-being of the end user.

Unbescheiden – the power of water and light

\* Optional feature

CARACALLA ° SPA SENSATIONS

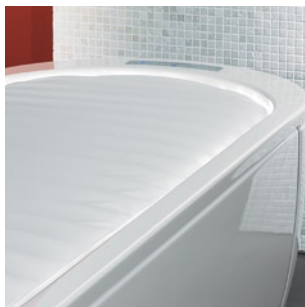

JOUVENCE ° SPA SENSATIONS

DRY FLOATATION SYSTEM JOUVENCE

# JOUVENCE dry floatation system – finding peace in a feeling of weight- lessness

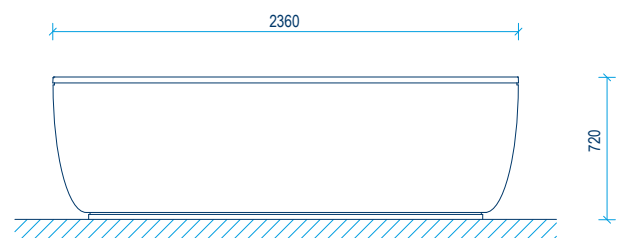

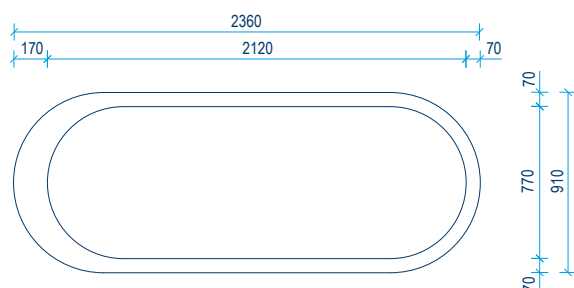

and relaxing and regenerating while enjoying the benefits of body wraps. The dry floatation system JOUVENCE has a surface which can be adapted

to different treatment phases. At the beginning of the session, you lie on a solid cushion of air, which is the perfect foundation for a relaxing massage or a body wrap. Once the wrap has been applied, the cushion slowly releases air to lower you onto a pleasantly heated water cushion. This feeling of floating calms and relaxes your body, enhances blood circulation and opens the pores of the skin. The wraps can develop their maximum effect. When the cushion of air rises again, your legs are supported and lifted first to stabilise and stimulate your circulation.

Operating JOUVENCE is simple and intuitive thanks to the five keys on the edge of the bed. The removable blanket and fitted sheet for the cushion are odourless and impervious to water, oil and disinfectant. They can be washed at 90° C or steam-cleaned. The surface is wrinkle-free and easy to clean. The numerous functions that JOUVENCE offers all give you the feeling of being in the best of hands at every moment of the treatment session.

Unbescheiden – truly enjoyable relaxation

Technical modifications reserved

JOUVENCE ° SPA SENSATIONS

BALANCE ◦ SPA SENSATIONS

# BALANCE wet massage table – the culture of massages using water or oil

to relax, regenerate and replenish your strength  
for the demands of everyday life. BALANCE's technical features are subtly integrated

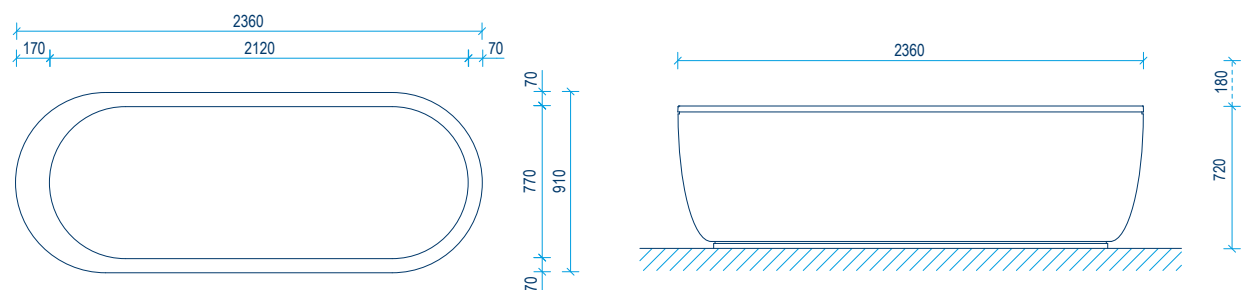

into the design. The hand-held shower head is located at the edge of the table, and the water temperature is selected via a thermostat. Lather is created as needed by pressing a button in the table.\*

The user's head is positioned in a slight recess which features a separate drain for the oil from Ayurvedic treatments\* in which hot oil is poured over the forehead. The oil runs into a bowl and can be removed easily.

BALANCE is easy to use and features a thermostat and 6 buttons on the edge of the tub. Since the surface of the table is made of a synthetic material, it resists oil, salt and other massage products and can be cleaned and disinfected easily. The table height can be raised from 72 to 90 cm at the press of a button. This helps the user to lie down more comfortably and makes the therapists' work easier. BALANCE offers numerous treatment options for pampering people with heat, water, light and touch.

Unbescheiden – revitalising and restoring body and soul

Technical modifications reserved

\* Optional feature

BALANCE ° SPA SENSATIONS

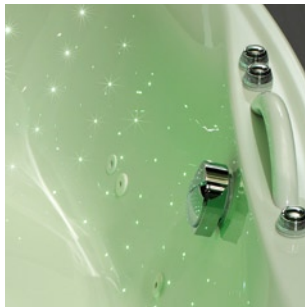

HARMONY ◦ SPA SENSATIONS

# HARMONY – whirltub for enjoyable baths for one or two persons.

Elegant and luxurious bathtubs that are perfectly shaped and can be integrated smoothly into different planning concepts. Baths with salts and oils are a major

component of the pampering programme in spas and wellness centres. While tranquillity and relaxation are the main considerations for an individual bath, a bath for two is a shared experience that should be celebrated in style.

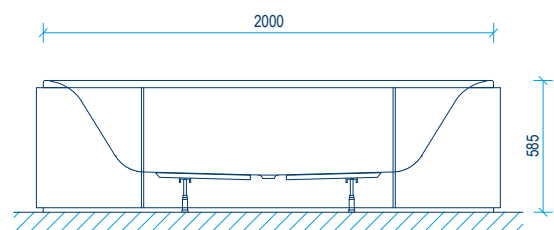

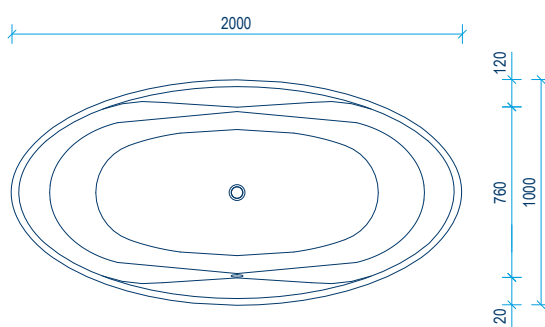

The HARMONY whirltub offers a variety of flexible application options – both for individual and for partner baths. When taking a bath for two, the users sit opposite each other. An integrated footrest provides support for individuals bathing alone.

HARMONY cultivates the sensual bath experience: Whirlpool massages with numerous ergonomically shaped massage jets and the relaxing interplay of colours of the Starlight Effect\* with its 146 light spots in eight different colours.

HARMONY can be integrated easily into a variety of spaces and can be either installed as a free-standing unit or with a full or partial tiled tub surround. The tub is made of high-quality acrylic glass which can be easily cleaned. HARMONY comes with an automatic rinsing feature that meets the highest standards of hygiene. Minimal noise levels make sure that a bath in HARMONY is an entirely relaxing experience.

Unbescheiden – bathing culture for all of the senses

VICHY PRESTIGE ◦ SPA SENSATIONS

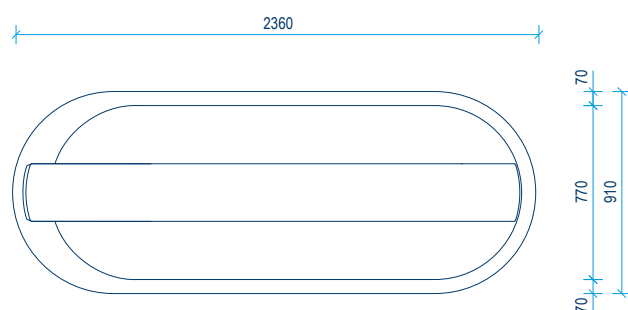

# VICHY showers – for excellent shower treatments.

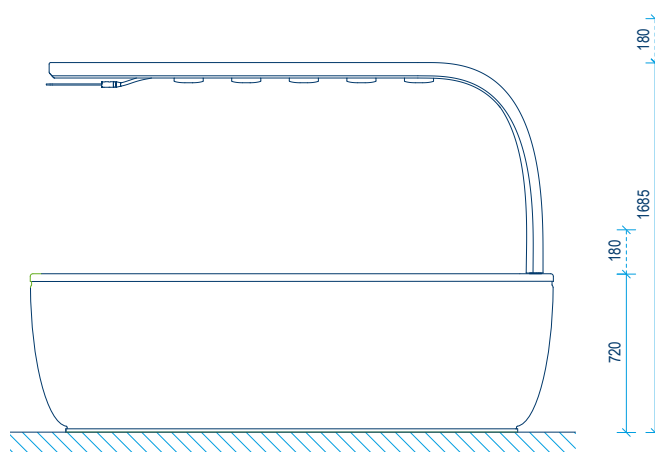

Perfectly suited for treatments in spas, wellness centres and medical facilities. The models VICHY PRESTIGE and VICHY SUPÉRIEURE complement the Vichy product line and are ideal for medical and wellness treatments. VICHY PRESTIGE combines the features of the VICHY shower with the functions of the BALANCE wet massage table. It is often used for spa and wellness treatments. For classical Vichy treatments we recommend the use of VICHY SUPÉRIEURE.

... A treatment  
is most effective  
when it soothes both  
the body and the spirit.

---

*Heinrich Unbescheiden, Snr. (1874 - 1959)*

# VICHY showers – a perfect complement to therapeutic and wellness treatments.

Elegant design, advanced technology and superior comfort for the user.

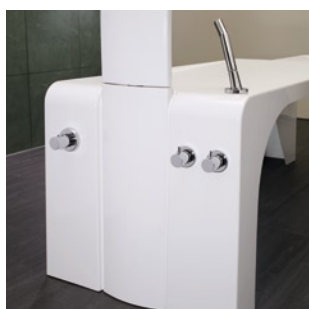

VICHY SUPÉRIEURE is perfectly suited for the requirements of traditional Vichy treatments. The lowered armrests and the opening for the head allow the user to lie very comfortably.

VICHY PRESTIGE combines the features of the Vichy shower and the BALANCE wet massage table. And thus allows the expansion of the treatment spectrum to include ayurvedic and hot-stone treatments, body wraps and wet massages. The height of VICHY PRESTIGE can be adjusted for easier access and convenient handling by staff. VICHY PRESTIGE comes with a heatable surface\* and is equipped with the Starlight Effect\*. It offers various treatment options for the most sophisticated spa applications.

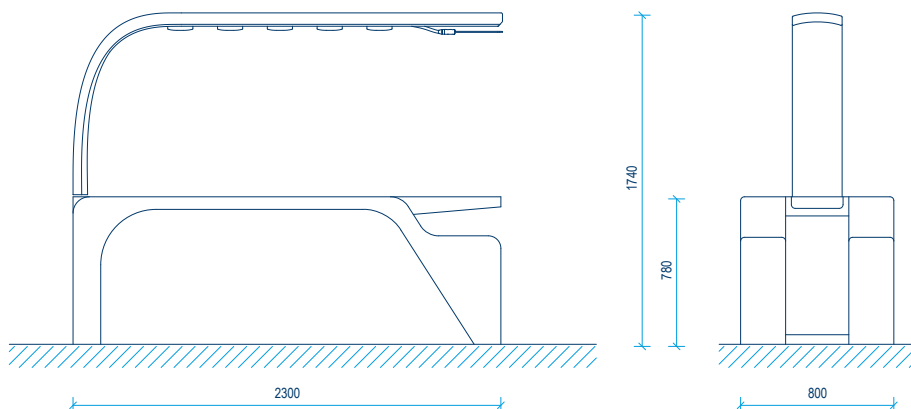

VICHY showers can be operated with fresh, thermal or salt water\*. The temperature of the water is regulated via a thermostat. The five shower heads can be adjusted individually and switched off separately. Due to their oval shape, they are easy to handle even with wet hands. The unobtrusive splash guard for the face can be adjusted as required and removed for cleaning purposes.

Unbescheiden – Vichy showers for a wide variety of applications

VICHY SUPÉRIEURE ° SPA SENSATIONS

# Planning and design – the entire range of services for wellness and spa centres.

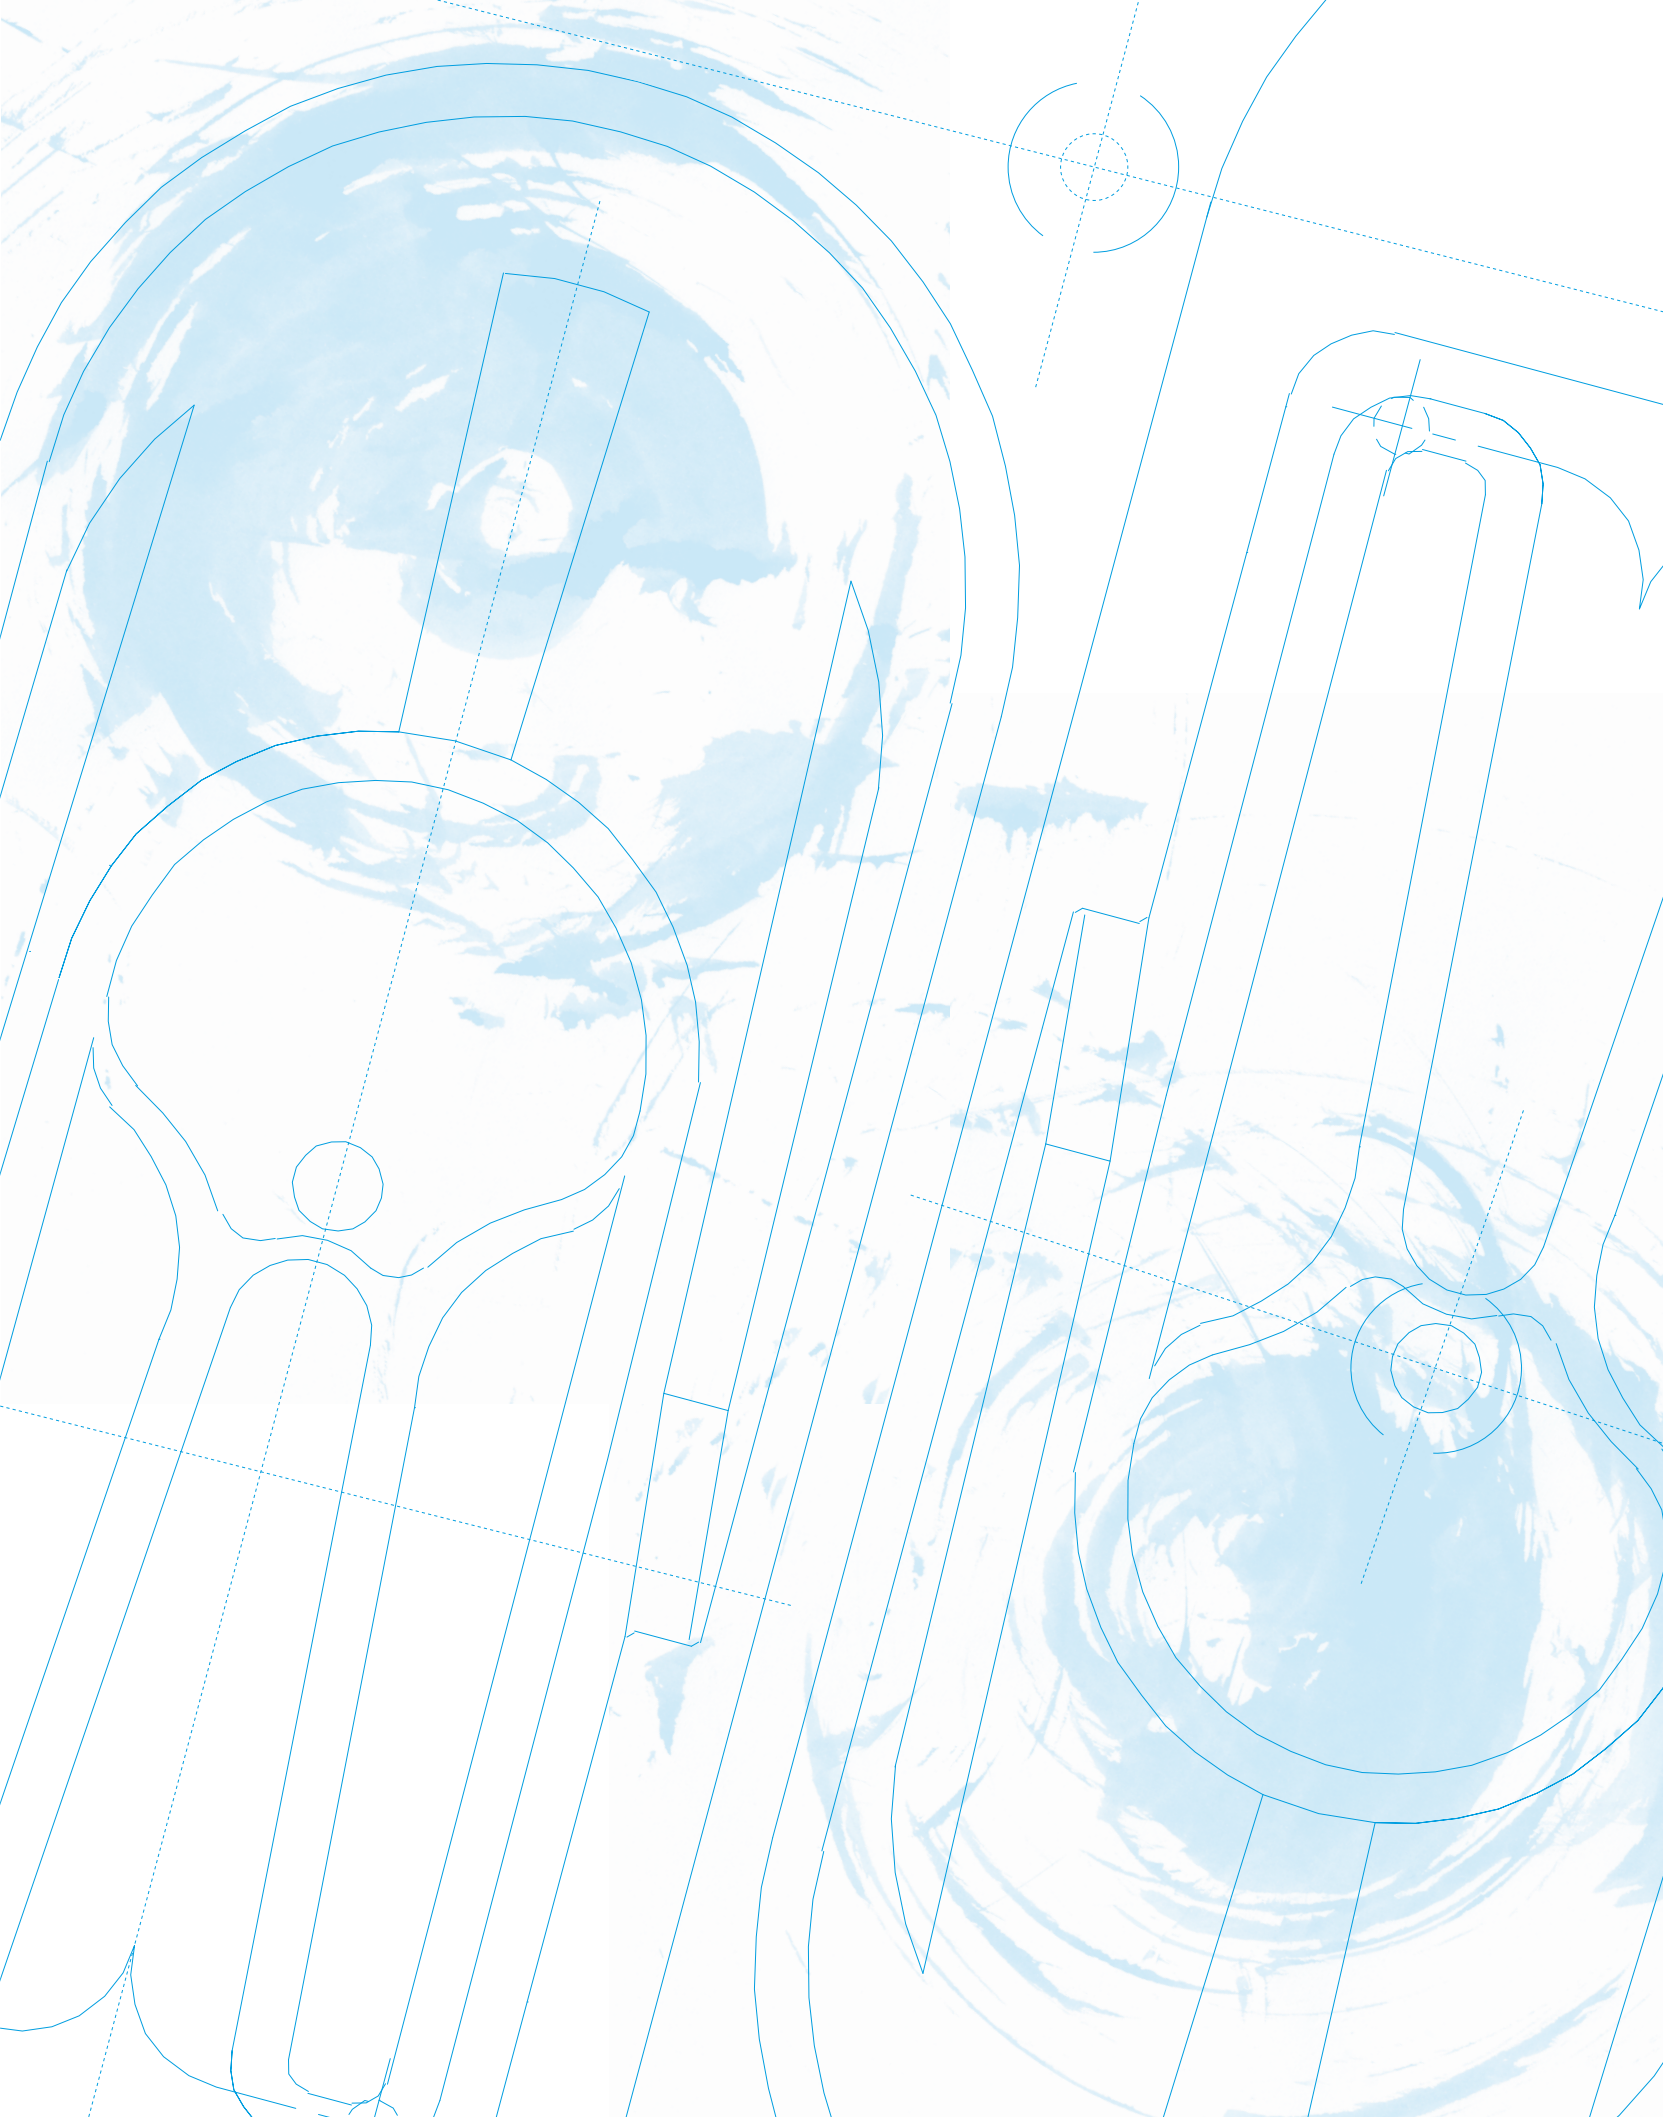

Expertise and experience in developing ideal project solutions. For decades Unbescheiden has been a proven expert in designing sophisticated structures for wellness and spa

treatments. Unbescheiden works in close cooperation with architects and specialist planners: The services range from equipment solutions for individual treatment rooms to designs of entire areas in wellness and spa centres.

Our architects and engineers develop the best possible solutions for every kind of spatial and treatment-specific requirement – and they always focus on combining optimum treatment possibilities with an efficient work flow. References in Germany and abroad bear witness to the competence of Unbescheiden.

Unbescheiden – the design expert for wellness and spa centres

# UNBESCHIEDEN – expertise that meets the highest standards.

Unbescheiden GmbH develops exceptional solutions that can be used in spas, physical rehabilitation centres and medical facilities. Its products are second to none worldwide in their functionality, quality and design. These standards have been the Unbescheiden tradition since 1869. The company

was founded in the late 19th century. Within a short time, health spas and sanatoriums throughout Europe prided themselves on using Unbescheiden sanitary fixtures and thermal water treatment equipment. Today, the Unbescheiden name represents the fifth generation of high-quality equipment for use in spas and wellness centres as well as physical rehabilitation and care-taking facilities.

The company's products are functionally well-designed, have multi-faceted uses and are easy to handle. All of these features are a result of its decades of experience and close cooperative efforts with therapists, physicians and end users. Unbescheiden's products are known for their quality and durability because the company pays careful attention to the manufacturing process, materials and features.

The company is based in Baden-Baden, Germany, and is highly regarded all over the world by its clients. Unbescheiden offers consultancy in planning and design and can accommodate special needs in terms of equipment or applications.

Unbescheiden offers you the highest standards: sophisticated technology which harmonizes with the clear and stylish design of its surroundings and creates a space for a luxurious experience.

Unbescheiden – natural strength to serve your health
